Prosound429 Package

With the Prosound429 Platinum Thumper being the most powerful thumper available from Clark Synthesis, it is the clear choice for inclusion in our Prosound Package. The Prosound429 Package consists of (1) Prosound429 Platinum Thumper, (1) TC-101 Amplifier Interface with (2) Speak-on Connectors, (1) Gig Bag, and all of the hardware for mounting the thumper to a drum throne, platform or staging.

The TC-101 serves as a protection device to limit peak signals. An amplifier is required in order to operate the Prosound429 Platinum. Clark Synthesis recommends using an amplifier that is stable at 4 ohms that can deliver 125-150 watts @ 4 ohms (per thumper).

Prosound429 Platinum	
Continuous Power Handling	135 watts
Impedance	4 ohms
Overload Protection	Polyswitch
Frequency Response	5Hz to 17kHz
Electrical Connection	3 ft.- 16 gauge, 2 wire
Dimensions	8 in. diam. x 2.25 in. high

TC-101 w/ Speak-ons
